SuperDry 45 Top Coat

- Air dry, high gloss formula delivering a touch dry finish in 45 seconds
- No need for the application of heat or light
- Durable, non yellowing finish suitable for acrylic and gel applications
- Non yellowing, UV light protected formula that is Formaldehyde free

SuperDry 45 increases your ability to see more clients by reducing the overall amount of time spent on each application. With a durable and clear, high gloss finish, SuperDry 45 can also be used as a base coat. Drying time may vary slightly based on the composition of the polish used however SuperDry 45 will not chip, crack peel or yellow, enhancing and maintaining your clients nail colour until they return for an infill.

Fast drying, high Gloss, non-yellowing clear coating that accelerates the drying time of nail enamel while also providing sunscreen protection for your manicure. It provides a hard & chip resistant coating that helps extend the wear of your manicure. This formula uses two UV absorbers to help protect the nail and color from ultraviolet radiation. This UV protection helps provide color fidelity for your manicure, to keep dark colors from fading and light colors from yellowing.

INSTRUCTIONS FOR USE

Once the acrylic or gel application is complete, ensure the nails are completely clean and dry by removing all traces of dust, cuticle oil, hand cream etc. Then apply a base coat of AcrylSeal to the entire nail surface including the nail grooves and the free edge. To finish, apply nail colour and Nailbiz SuperDry 45 top coat. Apply an even coat to the entire finished nail surface.

To remove, SuperDry 45 will dissolve in readily available nail polish removers.

Available in 15ml bottles with cap and brush. Larger sizes available on application.
